

2023-020 April Neo

Date

forgot artificial seawater this time :)

Sample # 11A/B, station BS-11 (12 April) -
very pale filter, but ^{few} large single cell diatoms
visible on filter, + few black spots.

Scanned 03 May 2023 ER

2023-021 May Neo 'Lite' 5 May 2023 ER

→ using 291mL bottles for all cell samples.

6 May 2023 ER

Sample # 12: slow filtration due to
high sediment load in water
→ 1 zooplankton, 1 pine needle
on filter. FLAG 2

Sample # 18A: resampled due to filter
being askew on rig. FLAG 2
sample 18 → high sedload.

Sample 21: did not visit station Flag 9
