Chlorophyll = green sat 298ml

2023-07-29

Sample 79 bot 10 lost 20 mL

01 Aug 23.

Sample 250 = lost during collection
lost ~ 50 mL

04 Aug 2023

Sample 419 lost 3 mL

440A & B loop samples, we were
tied up fueling in Port Hardy
and there was a lot of algae
at the surface. I think some
got pumped into TSG system as
there are lots of green flocks
that look like macroalgae.
