Chlorophyll = green set 298ml

2023-07-29

Sample 79 00' to 10' lost 20 mL

01 Aug 23

Sample 200B - lost during collection  
lost ~ 50 mL

04 Aug 2023

Sample 419 lost 3 mL

440A & B loop samples were  
tied up fueling in Port Hardy  
and there was a lot of algae  
at the surface. I think some  
got pumped into TSG system as  
there are lots of green flakes  
that look like macroalgae.
