

2024-025 (Juv Salmon, June 11, Amy Tabata (S))

Sending out YELLOW bottles = 295mL filtered unless otherwise noted). Have a great cruise !!

CI 12 June 2024

1 a & b : sampled from rosette late (~20 minutes) due to bongo issues! Sorry!

13 June 2024

4 - lost 5mL

16 June 2024

sample 20A filtered way faster than 20B so I thought maybe it had 2 filters on the manifold → dumped it into a new manifold & cup but still slow so I think it is clogged by bits of jelly? 20B has 2 filters total & lost ~5mL.
